#### Diploma in Engineering

Institute: Dhaka Polytechnic Institute

Dept : Computer Science & Technology

Result : CGPA 3.83 out of 4.00 (7<sup>th</sup> Semester)

Year : 2022 – Present

#### Secondary School Certificate (SSC)

School : Bangabandhu Sheikh Mujib Academy

Board : Dhaka

Group : Science

Result : GPA 4.56 out of 5.00

Year : 2021

### PROFESSIONAL TRAINING

#### Software Testing and Quality Assurance

PeopleNTech Institute of IT

September 2025

Credential ID QA24-01

## Test Case Management Tools:

Excel, Google Sheets

## PRACTICE PROJECTS & RESPONSIBILITIES

### Project Management/Bug Reporting Tools:

Jira, Trello

### Version Control:

GitHub

### AI QuizWhiz (Collaborative)

Manual & Automation Testing Project

- Performed functional, UI, and validation testing for Login, Signup, Dashboard, and Cash Payments modules.
- Created and executed detailed test scenarios and test cases based on requirements.
- Identified, reproduced, and reported bugs to the development team.
- Developed basic automation scripts using Python & Selenium for regression testing.
- Conducted cross-browser testing across Chrome, Firefox, and Edge.

## Soft Skills

Communication

Teamwork

Adaptability

Problem-Solving

Punctuality

Multitasking

### Test Automation-Web Applications

Practice Websites from Razvan Vancea's Demo Collection

- Developed and executed automated test scripts for web applications using Selenium/Python.
- Performed functional, regression, and UI testing on multiple demo websites.
- Implemented test automation frameworks and utilized assertions for validation.
- Generated automation test reports to analyze results and improve test coverage.

## Languages

English (Fluent)

Bangla (Fluent)

### QA Practice Netlify-Web Applications

Manual Testing Project

- Designed and executed detailed test cases for authentication flows, form validations, and data-driven interactions.
- Identified and reported unique defects, including functional errors and UI inconsistencies.
- Validated API endpoints to ensure data integrity between front-end and back-end.
- Verified application responsiveness and behavior across different browsers (Chrome, Firefox, Edge).
